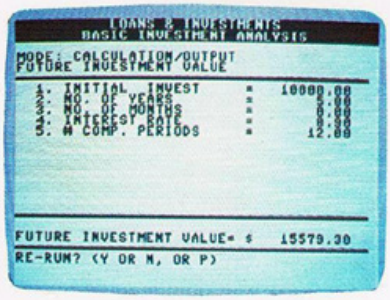
LOANS & INVESTMENTS

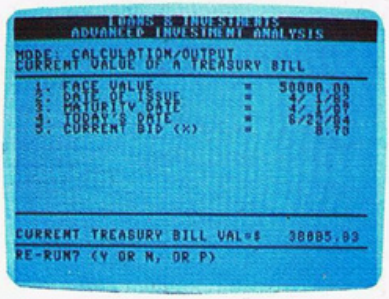
Important Calculations To Plan Your Financial Future

Borrowing or investing money can sometimes be a risk. **LOANS & INVESTMENTS** helps reduce those risks and makes you feel more secure about your financial decisions. This comprehensive program contains 12 loan functions, 16 basic investment functions, and 16 advanced investment functions. Valuable and helpful features as on-line tutorial, bar graphs and print capabilities add to this excellent package.



Use the basic investment functions to calculate investment alternatives and current value of stocks, bonds, and annuities.

Loan functions include amortization, mortgage comparison, Rule of 78's, and interest and property cost analysis.



Additional advanced investment functions include weighted cost of capital, accrued interest on bonds, financial management, rate of return, and present value of a tax deduction.
